Dear Brian,

Thank you to ACER-CART for your generous annual contribution of \$500 to the Canadian Health Coalition.

Having this support from your members means a great deal to us. It is you and your members' willingness to support advocacy dedicated to the protection, improvement and expansion of public health care that allows us to continue our work.

We have a busy year ahead with plans to continue our work to ensure the preservation and improvement of public health care. It was a pleasure to have you take part in our annual lobby in January. That day, 125 advocates asked 100 Members of Parliament to support a National Public Drug Plan. We will also continue advocating for strong federal leadership on health care and we have plans to develop a seniors care policy this year.

Your support will help us continue to take significant steps forward in safeguarding Canada's public health care system. Many thanks for helping make this happen.

In solidarity and friendship,

Adrienne Silnicki
National Coordinator
